Campbell Telephone System Getting Large

Hundreds of visitors attended open house ceremonies yesterday at the telephone plant on Second avenue while telephone officials explained working operations of the 22,600 calls handled there daily, how long distance calls are made, how cable splicing is done and all the other operations of the million and a half dollar plant here. The firm last year paid $13,713.84 in taxes to the city.

The plant can handle some 600 more installations over its present 6,107 FRanklin-8 listings, and this will probably be achieved within two years after which a sub-station may be set up, possibly in Cambrian Park to take on the increased load. The development of the fringe areas require new cable lines to the exchange, so a sub-station or exchange in a heavily populated fringe area might better serve the load than expand present facilities it was explained.

Besides the exchange on Second street, the Pacific Telephone Company also has a garage and maintenance plant on Hamilton Avenue near the railroad crossing, at which 18 pieces of service equipment are kept and forty men are employed, thirty of whom reside in Campbell.

Pacific Telephone has spent more than 1-1/3 million dollars on new facilities in Campbell since 1945.

Citing the compay's construction program as an indication of Campbell's continuing development, T. T. Cook, Jr., telephone company district manager, reports the present total invetment here is $1,526,785. This reflects an increase of over ten times since the end of the war.

Cook stated that local residents are now placing a record number of daily calls, an average of 22,666 to be exact. He pointed out that this is almost 6-½ times the daily volume handled at the end of 1945.

Want to hear about more records? Campbell has them— 6-3/4 times more telephones now than there were less than nine years ago! The company has installed 5,202 telephones since 1945 to bring the present number to 6,107.

Cook stated that the enlargement of Pacific Telephone's facilities to meet Campbell's continuing growth is still going on. Under way are two outside plant jobs costing an additional $19,000 to provide more facilities for subscribers here.

SITE NOW BEING CLEARED FOR NEW CAMDEN HIGH SCHOOL PLANT

Uprooted prune trees from the 28 acre ranch which is to be the site of the new Camden high school, were burned yesterday as the first step toward clearing and levelling the land for construction purposes. Hundreds of persons were given free wood before the burning got under way Monday. Orlandi and Messa have the tree removal contract at $39 per acre. Construction is due to tsart in August.

As reported in the Campbell Gambol a fortnight ago, "Camden" is a derivative of two words once used to denote a little railroad connecting Campbell and Almaden. This steam line carried most of the "Almaden" stone used to build the corridors and classroom evterlors of Stanford University and the Postoffice in Palo Alto. The first syllable of its name, "Cam" came from Campbell and the "den" from Almaden. The railroad ran along what is now Camden Avenue. The grade of the old line can still be denoted in the orchards and along the streambeds in Valley vineyards, even though most of its rails and ties were removed years ago.

When Parker Elementary School on Union Avenue near Cole was built, some wanted it named "Camden" too, but they were overruled by a group seeking to honor Major Lewis Parker, who was mainly responsible for starting Union District's first school.

In accepting the appointment, Cava, who is vice-president of the organization, said his committee will work closely with the city council to study the potential of Campbell's industrial area. Cava has been superintendent to production managers for several large canneries in Western states and was for many years a director of the Canners League of California. He was chairman of the industrial and railroad affairs committee for the Salinas Chamber of Commerce and for the Central Coast Counties Chamber of Commerce.

HOLLIS LOGUE IS PRESIDENT OF PLANNERS

Action of the application for a regional shopping center at Hamilton avenue and the Los Gatos-San Jose road was deferred until the June third meeting of the planning commission, following verbal request from petitioners, the Mayfair Packing Company who will have architect plans completed by then. The commission did however grant a permit to Mayfair Packers to set up a cherry stand fifty feet from pavings at the southwest corner after a spokesman said one way entrances from each road would be made dust-free. The season, now starting, will continue to July. The state in the meantime is setting up traffic control signals and widening to four lanes the highway at that point. Action by the planners was taken with these conditions, although Police Chief Robert Locke said in a letter, the stop may be hazardous while construction is under way.

Hollis Logue was elected chairman of the Planning Commission and T. R. Solari of 11 Carlyn was named vice-chairman at the meeting Thursday. Logue, who had acted as chairman pro-tem by virtue of having been vice-chairman when John Chargin resigned as chairman, submitted his resignation in order that the commission could be reorganized for the term.

City Plans To Correct Tree Hazard Problems

Enforcement of existing ordinances on tree trimming in order that low portions of trees and shrubs are cleared for visual purposes and highway safety, was indicated in action taken Monday evening at the city council meeting after Councilman Gordon Daum pointed out that at several corners visibility has been reported bad because of tree and shrub growth. LeRoy Black, street superintendent was advised by Mayor Morton and the council to cease trimming work and allow property owners to be notified of the hazard so they may correct it. The committee on ordinances and franchises and headed by Councilman John Chargin will study enforcement plans.

A study of lighting standards which subdividers are required to install under terms of the zoning ordinance was assigned the streets and highway committee of which Daum is chairman. No specific standard is now called for in the ordinance so some uniform type is to be considered for specification.

The council adopted the ordinance annexing the 5.04 acre Warning tract west of Campbell and will allow the building inspector to issue permits for new homes there under terms of city restrictions.

Council also approved variance to a duplex status for property now zoned for single family dwellings owned by Ralph Weaver in Hamilton Square.

A check for $5,301.58 for quarterly gas tax apportionments brought the total to $20,521.27 for the year according to Mark Thomas, city engineer who estimated that with a 10% anticipated increase in 1954-55 the amount will be $22,370. . . .

A permit to sell safe and sane fireworks from June 14 to July 3rd was issued Robert Seligson of the Campbell Variety Store. J. B. Scott, fire chief, said other merchants wishing permits must apply for a use permit and city license and that permits may be filled out at the firehouse.

Offer of land for a playground if leveled off by city equipment, might lead to legal complications street commissioner Black was told, however his proposal was referred to the planning commission and to the city attorney.

City attorney Joseph Bonacina said he would have the bicycle and the firearms ordinances ready for introduction at the June 7th meeting. Members of the council and Mayor Morton expect to attend the League of Cities convention June 3-4 at Santa Barbara.

CAMPBELL AND THE TELEPHONE

The telephone story in Campbell is one of historical and economic importance. Today that story can be better understood by a visit at the plant on Second street. It will be open house, so visitors will be welcome.

In eight years the company has spent a million and a third dollars on new facilities for this exchange, ten times its value of eight years ago. There are seven times more telephone users here than ten years ago, and 22,666 calls are handled daily at the exchange. There have been 5,202 new telephones installed here since 1945, so that now there are 6,107 listings.

This is an amazing growth, one of the largest in the state, yet it is a factual report. The Pacific Telephone and Telegraph Company itself has made many important improvements in their facilities, all in the interest of improved servces. Improvements in television, radio and long distance services in the last decade represent the work of some of America's finest engineers, and this can be seen in the small town as well as in the nation's largest. That is what open house is for, and it is worth while attending.

PRE-TRIAL CONFERENCES

Santa Clara County may adopt a pre-trial conference procedure on an experimental basis in the Superior Court soon to determine its effectiveness in handling more civil cases. The system is in use already in several other states. Some other counties in California have tried out the plan for a year with favorable results.

The plan will be presented tonight at a meeting of the Santa Clara Bar Association through the Judicial Council of the State of California.

Chief Justice Phil Gibson of the State Supreme Court, who is chairman of the Judicial Council, sees a need for new court procedures such as pre-trial conferences. He says that the big problems facing courts is how to take care of increased litigation caused by tremendous population gains and how to handle it at the least cost to taxpayers. A constant yield to demand for more judges seems not to be the solution, but rather it is in greater efficiency in court operation. This will be the function of the pre-trial plan if adopted for experimentation here tonight.

THE TAXPAYER'S DOLLAR

Do you know why it currently costs about $10,000 per year to maintain the average G. I. stationed in Europe? That question came to the editor today from Congressman Charles Gubser, on Capitol Hill, Washington. The answer comes also from the congressman as follows:

"The 300,000 American troops stationed there have about 200,000 dependent wives and children living with them—at government expense, according to testimony before the House Appropriattions committee. Admiral Radford. who is chairman of the joint chiefs of staff, told the committee that instead of paying $10,000 a man that way, in many cases natives could be hired to do the same work for $1200 per year."

Some day a member of Congress is going to speak in behalf of the average tax payer, explaining how difficult it is for him to raise the taxes on property and still have enough to pay for the essentials of home life—how he trusts the integrity of government collecting and spending agencies that they get the most for his money in services and supplies. Here we are told why it costs so much to keep a G.I. on foreign soil. It seems an extravagance to operate that way with the average man's money. Something should be done about it. It isn't the billions of dollars it takes to run the government which the average man is interested in, for he knows his tax money goes into the hopper like that from millions of others in the average class to create a fund with which to run the various bureaus and agencies. That thousand dollars or so which the average man pays the government in taxes means a lot to him and he would just like to see the way it is spent. dollar by dollar, once the government gets it.

MEMORIAL DAY

Memorial Day is not much different than any other day to Mrs. Potter, whose husband, Frank, is buried on Iwo Jima. Nor is it different to the Norris family, whose youngest boy, Don, was the victim of a land mine in Korea. The same thing goes for Gus Gamboni in the Veterans Hospital where he spends his time in a wheel chair. Gus was in the first infantry wave that hit Omaha Beach on June 6, 1944.

These people don't need Memorial Day to remind them of what happened. They think of it every day. Some days more, some days less. But they think of it. They think, too, of the millions of young men trained or in training, for military service. And they wonder what their fate will be. Will there be another war or "police action," more casualty lists, more graves, more heartaches?

They don't know. Neither do we. Nor anyone else.

But men in distant places continue to plot world domination. And so we must face up to them with unflinching courage.

So, on this Memorial Day, let us revere the past but resolve for the future to strive for peace peacefully, but fight for it if we must.

The Campbell Gambol

THE GIRLS Will be dressed in Spring formals and the boys decked out in white dinner jackets at the Junior prom tomorrow night, a big night at the high school . . . the girls' gym where it is to be held is being decorated by the junior class in a lush combination of pink, turquoise, black and American Beauty rose red, and there will be real trees and an Oriental bridge with simulated water to make dreams come true and memories live, if the words of our spy can be relied on . . . . anyway we get a poem by a Mrs. Hannah Kahn to sum it up, like:

He who never washed his ears
Without a prod and push
Is scrubbed until he glistens
With washcloth, soap and brush.

He who never cared for girls
And always passed them by,
Is carrying a florist's box
And wears a new bow tie.

There I see him blushing
While I pretend to be
Just casual and indifferent
To all his misery.

But I remember years gone by
When his father came
Bringing me his corsage
And stammering my name.

MOORPARK TEACHER Figures she's got the perfect way to discipline her charges and seems to be having some success with it too, except that her fingers ache a bit at night . . . . takes empty beverage cans, she does, and if Johnny acts up, asks him how he'd like to get squeezed up like 'a dis, and takes a can in her mighty right and squeezes it until tin meets tin, and if you think that's a cinch try it . . . anyway, Johnny calms down, and we'd shake her hand for being so good at it except that she might give the hand the same treatment.

CHEER LEADERS for the new term will be Mary Begalke, Yvonne Flaminio and Lois Fairbanks for the varsity and Beverly Strandberg and Roberta Pereira . . . . all girls, and it just seems like yesterday that we wrote a story about the first girl selected as a high school cheer leader, which only goes to prove how quick they take over when the boys drop their guards or keep on with the same old, ziz, boom bah stuff with a wave of a pennant and a fluttering left hand . . . . the sissy . . . but to hold down a cheer leader job for Campbell High takes some real workout and talent, and the little blond who had the assignment this year went all the way to raise school spirit which had a lot to do with victory after victory for the Bucs.

Gas and electricity are cheap in California

The Hamptons, newcomers to California, were pleased to discover that *all* their appliances cost less to operate here.

***Their P. G. and E. bill in one month was* $8.47**

***Where they used to live, the same amount of gas and electricity would cost* . $10.01**

Why not take full advantage of California's low rates for gas and electricity—by putting the money you save into more timesaving, work-saving appliances. Enjoy better living for yourself and your family!

"My big new refrigerator-freezer does double-duty for just 84¢ a month!"

says Mrs. Norman Hampton, 868 Tabor Avenue, Yuba City, shown here with her daughter, Julie.

"I was really surprised when I found out how little it costs to run my wonderful new refrigerator-freezer combination. Imagine running a big refrigerator with all the new features like moist cold and automatic defrosting—plus the spacious food freezer—for just 84 cents a month! And the rest of our appliances are just as inexpensive to operate."

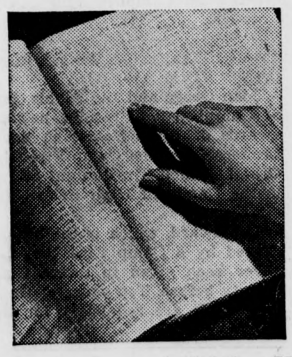
WHAT'S DOING

T. T. Cook, Jr., your Telephone District Manager for Campbell

Where safety is always in style

The man inside the strange garments (at right) put them on to show you the wide variety of safety devices we use today. Of course, it isn't likely a telephone man will need all this equipment on any single job. But whatever the job, telephone men have the safety devices and techniques they need. Making safety our style pays off for you. For we think a job must be safe to be good. And only good jobs can hold the capable people needed to bring you more service, dependable service, at lowest possible cost. **Pacific Telephone works to make your telephone a bigger value every day.**

Save time—look up numbers before you call



You know, telephone numbers have a way of getting twisted when you rely on memory alone. So, to make sure you get right numbers the first time you call, look in the telephone book for those you're doubtful about. And to help you keep handy the numbers you call most often, we'll be glad to send you a free booklet to list them in. Get your copy by calling, writing, or dropping in at our business office.

Cambrian Review Most Successful

Capacity crowds filled the Union School Auditorium for the "Gay Nineties Scrapbook" presentation by the Cambrian Players held Friday and Saturday evenings, May 21 and 22.

Extremely receptive audience seemed pleased with two hours of fast moving entertainment. The Flora-dora girls, namely Joe Ticknor, Mac McCulloch, Stan Becker, and Lee Diel, Assistant District Attorney, are credited with "stealing the show". And the pantomime by Marjie Becker will be remembered too.

Private organizations and various school districts of the area have asked for repeat performances, according to Margaret Bigelow, producer of the Cambrian Players.

The next production will be held in the fall. We all hope that Hortence Ash will be on hand to prepare the settings.

PICNICS, PARTIES, DANCES AS SCHOOL TERMS NEAR THE ENDS

Campbell High School students now have three weeks to go before "vacation time". These three weeks are full of picnics, steak fries, and parties, as well as year-end tests and graduation preparations for the seniors.

Yesterday found the athletic boys all out at Alum Rock Park enjoying the Block "C" club's annual Steak Fry with Basketball Coach Bert Robinson, Football Coach Jim Muir, Track Coach Junior Morgan, Tennis Coach Fred Gugat, Wrestling Coach Ken Dud dridge, Swimming Coach Len Croggins, and Baseball Coaches Mel Stein and Art Broadbent again howing the younger fellows the finer points of the game of volley ball.

Yesterday also found 160 C. S. F. members enjoying a trip through the San Francisco Airport Terminal Building, the musical comedy hit, "Brigadoon", and a full day in San Francisco topped off by supper at Moar's Cafeteria.

This Saturday the Faculty Men will all trek up to Agricultural Teacher Al Smith's Redwood Hacienda near Santa Cruz for their annual steak fry.

Next Tuesday, the high school women faculty members will sponsor an evening social in honor of the "Faculty Wive's" Club, a group of fifty women who have one thing in common; they're all married to Campbell High School teachers. This soiree will take place in Room 46 of the school's Home Economics Building starting at 8 p. m. and under the general supervision of Librarian Muriel Carson. It will start with dessert, then fast moving games, and end with one of Mrs. Edna Flagg's technicolored films. Other committee heads include Mrs. Doris Seaton, buying and selecting; Decorations and Table Settings, Mrs. Alfreda Runge; Invitations and Replies, Miss Kathy Bull; Serving an Preparation, Mrs. Vivian Stallkamp; and Entertainment, Mrs. Dorothy Christianson.

And then next week, Wednesday, the juniors who sold $60.00 or more worth of magazine subscriptions in the recent drive, will receive a free steak dinner in another Alum Rock Park picnic.

The school's girls' gymnasium is featuring big school dances two Friday nights in a row. Tomorrow night's Junior Prom will be attended by some three hundred juniors and seniors and their beaus. Next Friday's "Freshman Frolic" is being sponsored by the ninth grade class under the general supervision of freshman counselor, Dean Chamberlain. Under the colorful title of "Guys and Dolls", this student body dance is being planned by frosh president, Gail Gerlach, and her assistant, Pat Means. Don Dunton is in charge of refreshments; Pat Suglian, the coat room; Marge Hopkins, the sign-ups; Roger Flagg and Ann Hirose, decorations; and Jim Keech admissions. The Frosh HiY will be a clean-up committee themselves.

Youth Center Fund Drive Under Way

Santa Clara County Youth Center's building fund campaign is under way, with headquarters opened at 207 South First St., San Jose.

Sponsored by the Youth Boosters Club, organized to assist the Center, the first phase of the $200,000 drive will be a Sports Car Road Race at the County Fair Grounds on Sunday, July 18, when some 150 amateur drivers, all members of the Sports Car Club of America, will compete.

The Center is entirely non-sectarian and has a present membership of 2138 teen-agers. It was founded ten years ago by its director the Rev. Walter E. Schmidt, S. J., faculty member of Santa Clara University, and the first group was 20 boys and girls.

Building plans call for a modern structure which will provide recreational facilities for 3000 teenagers on Newhall St. near Washington at the boundary between Santa Clara and San Jose.

When completed, the new center, to be known as "Youth Village," will include a gymnasium, swimming pool, athletic f ields, hobby rooms, ballroom, little theater, workshop, music and rehearsal rooms, game room and soda fountain. Present activities include dramatie productions, choir and radio programs, track meets, boxing matches, baseball games, dances and other social events and courses in baby sitting and dress designing.

Campbell Future Farmers Do Well On Fishing Sunday

A group of 35 Future Farmers of Campbell and their fathers brought in 250 pounds of rock fish, including six big ling cods, from a day-long outing on one of the C. Stagnaro deep sea fishing boats Sunday.

Top fishermen in the father-and-son team were 15-year-old Gary Alameda, who landed a 20-pound ling cod, and his dad, John Alameda, whose ling cod weighed 13 pounds.

Ted Bohn, who arranged the trip from the Santa Cruz wharf, brought aboard an 8-pound ling cod.

Accompanied by their leader, Albert Smith, these Campbell Future Farmers and their fathers enjoyed the fishing: Pete Nutting, Harley Gardner, Richard Gibbins, Gary Alameda, Tony Lo Bue, Joe Lo Bue, Jim Fossum, Ted Bohn, Bill Bohn, Louis C. Nuney Jr., Bob Lightfoot, Charles Nibl, Bob Alvares, Richard Rice, Dan Austin, James Tonkin, Orland Monroe, Rick Wilson, "Red" Smith, Frank Mattos, Elmer Holt and John Mitchell.

Jury Quizzing Unveils Blasts At Hornbuckle

Judge Makes Public Torrid Reports On 1950 Office Inquiry

By JOEL Y. RICKMAN

Lid of secrecy was ripped from behind-the-scene operations of the Sheriff's office yesterday by a Superior Court ruling making public the explosive statements of 50 witnesses, many of them deputy sheriffs, quizzed late in 1950 for the 1949 County Grand Jury.

The ruling was issued by Judge William F. James in dissolving an earlier order which impounded the documents soon after they were filed Monday with County Clerk E. T. McGehee.

The statements were taken by Dist. Atty. N. J. Menard's office and offer evidence of tipoffs on gambling raids, refer to widespread gambling and prostitution, and reveal the seething resentment of deputies toward Sheriff Howard Hornbuckle for his asserted neglect of his duties.

One veteran deputy, when asked "What is wrong with the Sheriff's office?" replied:

"It has the poorest, lousiest supervision of anything I have ever seen or been in in my life, and that goes from the top down. I mean the top, too!"

Judge James' ruling came as Deputy Sheriff Sherman Millard, one-man Nemesis of punchboard operators, prepared to appeal to the County Civil Service Commission from Sheriff Hornbuckle's order suspending him for conducting unauthorized gambling raids.

Herman Mager, Millard's attorney, said he will file the appeal tomorrow, charging, among other things, that Hornbuckle "acted in bad faith" in suspending the young deputy.

Mager indicated he will also question the propriety of a superior's orders which prohibit a subordinate officer from making an arrest when he observes flagrant disregard for the law.

He said Millard will cite the testimony of several deputies contained in the statements released by Judge James as evidence of "what happens when one of Hornbuckle's men advises his superiors of an impending gambling raid."

Two of the statements referred to by Mager were made by Deputy Sheriffs William Mollison and Douglas H. Logan and concerned an abortive raid on the Three Deuces Club on El Camino Real near Mountain View. Logan is now a deputy investigator for the District Attorney.

The statements were taken last Sept. 11 at a time when the Grand Jury was knee deep in its investigation of the theft of slot machines from the Courthouse basement and the disappearance of several thousand dollars from the County Jail safe.

Mollison told of gaining access to a gambling room in the Three Deuces by following a customer who appeared to be familiar with the premises.

"I followed the other fellow through the door and there was the layout—crap table, poker table and a big banker sitting at one end with all those chips," he related, adding, "It looked like a small Reno."

Mollison testified the banker told him the place wouldn't "get lively" until about 11 p.m. or midnight, and that he left to join Logan who was waiting for him down the highway.

Mollison related that he and Logan then reported the matter to Sgt. John Perusina. The latter wanted to make the raid but said he must first notify the Sheriff. Meanwhile, they were joined by Deputy Leo King.

Perusina endeavored to telephone Hornbuckle. He was out of the city. The deputy then called Capt. Floyd Stewart, since resigned, and told him of the deputies' plans to raid the Three Deuces.

"Stewart seemed reluctant and asked us if we couldn't wait until 'tomorrow night'," Mollison said. "Stewart finally agreed and told us to pick him up at his home."

The three deputies, in company with Stewart, drove to the Mountain View sub-station where they picked up two more officers. Mollison told of surrounding the Three Deuces and rushing the doors. He continued:

"So we rushed in like the fools we felt later. I grabbed hold of the knob on the door leading to the gambling room and jerked. Nothing happened. It was closed up tight!"

The surprised deputy said he stalked from the locked door. He walked into the restaurant of the Three Deuces and there, sitting at a table, was the houseman or banker he talked to earlier in the evening.

"He was sitting there leisurely having a cup of coffee and grinning from ear to ear like a skunk on a log," Mollison recalled.

Dep. Dist. Atty. Louis P. Bergna next questioned Mollison, as he subsequently did other deputies, regarding what would be required "to straighten out the Sheriff's office." To this query, the witness replied:

"In my opinion, to straighten out the Sheriff's office, I would start with the Sheriff himself, although I may be looking for other work at a later date. Whether he has an inferiority complex or just feels himself above the men . . . I don't know. But he is a pretty poor . . . leader of men.

"Another thing, he is never in his office long enough to know what is going on in his own organization. . . . If the Sheriff would stay in his office and tend to business and act like he should, I think he'd have a smooth running organization. But if he can't be straightened up, I'm afraid the County is in dire need of a new Sheriff."

Logan's testimony corroborated Mollison's statement regarding the comic opera raid on the Three Deuces.

Bergna then asked the officer if, in his opinion, "the Sheriff has been acting as you would act if you were Sheriff?"

Logan: "No, he hasn't.

Bergna: "Would you tell us what the Sheriff has been doing that you consider unofficerlike?

Logan: I wouldn't say unofficerlike, in regards to the Sheriff. What he does is his own business. However, I do think the Sheriff should remain on the job more. That has been obvious to everyone. . . ."

It was Deputy Sheriff Phil A. Cuffaro, a veteran of 10 years on the Sheriff's force, who figuratively "blew a fuse" when he was propounded a similar question. (Cuffaro, a central figure in the Tom Talle murder case, drew a 30-day suspension for his asserted mishandling of the Talle investigation.)

Asked what, in his opinion, "is wrong down there—in the Sheriff's office?" he replied:

"We have the poorest, lousiest supervision of anything I have ever seen or been in in my life, and that goes from the top down."

Bergna: "In other words, you mean from the Sheriff down?"

Cuffaro: That is right. I have told him that many times . . . I have told him that to his face, too . . . and we understand each other. I don't think there is anything that can be done . . . I'd like to see things cleared up so that we could get some decent supervision and receive help when we need it."

HAWLEY

Only Qualified Man

FOR SHERIFF

DAILY PALO ALTO TIMES, WEDNESDAY, MAY 5, 1954

EDITORIALS

Hawley is the man for SC County sheriff

Santa Clara County citizens have not felt a sense of confidence in their sheriff for more than 25 years, except for the brief interim during which Col. Walter S. Gaspar picked up the pieces following William J. Emig's conspiracy conviction.

It is not necessary here to recall the alternating regimes of Emig and George W. Lyle, nor to remind the public of the 1950 grand jury's charges against the incumbent sheriff.

What matters is that the county now has a chance to elect a sheriff of demonstrated intelligence and integrity, a man with law enforcement experience but no entanglement with the network in which the present sheriff is enmeshed.

That man is 33-year-old Melvin L. Hawley of Los Altos.

Hawley gave up a job as deputy district attorney to run for the sheriff's post. In the DA's office, he was engaged in criminal investigation and prosecution. He knows the ways of crime rings and realizes that law enforcement is a tough business.

But he also knows there is a tremendous constructive job to be done in preventing crime and restoring offenders to useful citizenship. His program calls for creation of a citizens' advisory committee on these problems.

Hawley has had both training and experience in administration, the field in which the present sheriff has been notably weak.

He would bring to the sheriff's job a broad concept of his responsibility, a trained mind—he holds degrees from Yale and the Stanford Law School, and courage tested under one kind of fire in the U.S. Air Force and under another kind in the district attorney's office.

In supporting Mel Hawley for sheriff, we join forces with a strong bi-partisan group of citizens who believe that election of such a man is the country's best hope of ending conditions that have disgraced us for decades.
